

CACEE Awards

Name of Nominee: Joanne Metcalfe

Nominee Institution/Organization: Queen's University

Award: New Member Recognition Award

Nomination Overview:

Joanne recently joined CACEE as a Career Educator Member from Queen's University (first from Career Services and now represents the Faculty of Engineering).

Joanne leapt right in and added her voice of experience as an active volunteer for the association. She has supported the Membership and Volunteer Engagement Committee with a high degree of passion, commitment and enthusiasm.

Her work on this committee has been instrumental to the membership renewal process (e.g. reaching out to her network to encourage members to continue to be involved, seeking out the support of her new manager to ensure she could remain an active part of the association), implementing CACEE Member Insights which spotlights subject matter expertise from within the CACEE community, and in supporting the awards and volunteer recognition process. She has also demonstrated creativity in exploring ways to promote and continue to add value to membership within the organization.

It is for this continuous display of enthusiasm and commitment to being a champion for CACEE that I wish to submit this nomination for her to be recognized.
