

Research Committee

Purpose:

The Research Committee supports the association through the distribution of relevant research to the CACEE membership, supporting and fostering the creation of original research, enhancing the research expertise of CACEE members, and coordinating the contributions of CACEE to collaborative research projects.

Accountability: To the Board of Directors

Responsibilities:

- The Research Committee supports the association through the distribution of relevant research to the CACEE membership, supporting and fostering the creation of original research, enhancing the research expertise of CACEE members, and coordinating the contributions of CACEE to collaborative research projects.
- This committee works particularly closely with the Communications and Marketing Committee to share relevant research with our members to ensure members see value in the emphasis that CACEE places on research, and the Professional Development and Programming Committee to ensure research findings are widely accessible to members and inform professional development offerings.

Frequency of Meetings:

Monthly from September to June – 10 meetings per year.
